"IN HOC SIGNO VINCES"

THE BROOM

"You Shall Know the Truth"

War is the sum-total of all crimes. Left to themselves no people would make war. War-makers are heartless, cunning, greedy. All wars are for booty. The U. S. A. engaged in wars for the booty of the Allies and the destruction of free government by the people, of the people, for the people. Wars bring slavery and conscription, debts and poverty for unborn generations even.

* * * *

We all admire a man who says what he thinks — as long as he says it about other people.

VOLUME XVII. No. 22 EAST SAN DIEGO (5), CALIFORNIA MONDAY, MARCH 3, 1947 $4 per year; Single Copy 10 Cts.

Vengeful Jews vs. Geneva Convention

Dear Mr. de Aryan:

Enclosed check for "Broom" sold; No. 16, 17 and 18. Sorry to tell that of No. 17 sold less than usual. Cold weather plays a part in selling newspapers; people stay inside, and people from out of town don't come as usual.

Also there are a lot of Germans born overseas and even some born here, who are AFRAID TO BUY THIS PAPER and be seen with it. Afraid of the Jewish power in the U. S. A. government.

Sincerely yours,
EUGEN BRAND.

* * * *

Dear Mr. Brand:

Thanks for the check. I wrote Mr. Mertig last year that I did not expect to enjoy a large circle of German readers in New York for long. When nobody dared say a good word for the RIGHTS of German citizens over there who had been forced into the war by their government, or a good word for German-Americans in the Americas who were thrown into concentration camps; when no relief for Germany was allowed by mail, naturally, it was a sensation for a small weekly to appear in New York on news-stands in defense of the human rights of Germans, whether born there or here. But as soon as THE BROOM pointed out that Germans, too, are at fault and **actually created the condition from which they must suffer now,** immediately many of your customers got mad at the TRUTH.

Yet, again, you point out that many Germans are afraid of the Jews and are afraid to be seen with THE BROOM in their hands. What does that mean? It shows where the Germans continue to create the conditions that bring them misery.

About 12 million voters in the U. S. A. of German ancestry, at least, are afraid of less than 5 million Jewish voters and their power in the present political-economic rule of this nation.

Suppose that we have about 35 million people of German ancestry in the U. S. A. as against 15 million Jews, how come the Jews rule and the Germans crawfish? There is your answer.

When a paper, like THE BROOM, dares uphold law and order for all people, of all colors and creeds, and openly berates abuses of government, frankly shows where the fault lies, why do the Germans NOT LOVE THE TRUTH? Why do they expect to be presented as "innocent" when they are guilty of cowardice and neglect of their duty as American citizens!

Why do the Jews control? Because they RAISE MONEY in the hundreds of millions to look after their own kind and control our government.

But do the Germans have sense and gumption enough to even avail themselves of the privilege of FREEDOM of the PRESS guaranteed by our Constitution? If 12 million German voters read THE BROOM and followed our revelations and then voted accordingly, how long do you suppose the Jews would rule this country?

There lies your answer. That's why we had a war. The Jews worked for the war, the Germans were afraid to do their duty as American citizens and assert their inalienable rights under the Constitution to live up to their best sentiments. They even went farther. For a dollar they made munitions to kill their own relatives, friends and old country folks.

How many realize that the work I am doing now, to bring the case of the violation of the Geneva Convention before the Supreme Court in the McBride case, is more important than sending packages to Europe? A package helps a few, **this case will help 5 million German slave workers,** once the U. S. A. is told by the Supreme Court that it stop violating the Geneva Convention. How many Germans will send the price of a food package to help bring this case to the Supreme Court?

This explains why Europe went to war, why this country went to war. The people who know better, DO NOTHING, and the Jews and the war-mongers, including Hitler and Stalin, run the world to hell.

Sincerely,
C. LEON de ARYAN.

—o0o—

Sir:

You are enlightening us in many ways. Human beings today are so much in the dark and it seems as if many are satisfied to be so. I for one look for more light, and thus I like to read your valuable little weekly. Thanking you I am, Sincerely yours, W. S. T.

Exploiting German Slave Labor

BERLIN,—Today, quite by accident, I met a couple of kids, as a matter of fact—an American boy who married an English girl.

"Ever been here before?" I asked.

"Oh yes," John (as we will call him) said. "I was here in 1943."

"But that was when the Germans were very much on top."

"Yes," he said, in a matter of fact way. "That's when I came here. I was a bomber. Just about over this house as a matter of fact when I parachuted."

"And then what happened?"

"Oh, nothing much. I was picked up by a soldier and a civilian. Next day I was questioned and then sent to prison. Went from one to the other and ended the two-year stretch in a concentration camp at Stettine."

"Germans treat you all right?" I asked.

"Not bad. There were some smart young aviation officers in our prison camp and they knew how to make a radio. We got parts from German guards in exchange for Red Cross cigarets. We also had a daily newspaper."

"But didn't you get into trouble?"

"Not much. Once I wrote an anti-Hitler editorial and the Germans got hold of it. The Gestapo took me in charge and questioned me. Finally they let it drop. We made a lot of hand grenades and hid them for use if the going got too rough. We heard the news that Hitler had ordered all aviation prisoners shot. Next day the S. S. surrounded our camp and put up machine guns. A German officer told us not to worry. They separated 160 Jewish aviators from our camp and put them in separate barracks. 'All we will do if we have to carry out the order,' the German officer said, 'will be to burn those baracks.' Finally the Russians came in and told us to scram."

John went to Paris, where he works for an American radio company. He and his wife and two young boys found an old house 12 miles out of Paris for which he pays $40 per month. There are 11 rooms all heated by open grates—if, as and when there is fuel. Most of the chimneys were cracked and the smoke poured into the rooms. There was no modern plumbing, no hot and cold running water, and the two and a half acres on which the house is built were overgrown with weeds and trees. During the last year and half they have painted the house, patched the chimneys, cut trees for fire wood, put in hot water pipes and wired the house for electricity. The Mrs. has a flock of chickens in the back yard, and a milking goat which is soon to have a baby.

"Isn't that a lot of work for a fellow who has a radio job to do?" I asked.

"Of course I couldn't have done it all by myself. I telephoned the French Ministry of Axis Prisoners of War and told them to send me a German laborer. He works 10 hours a day for me."

He explained the system. There are about 700,000 German POWs scattered over France (most of them captured by U. S. soldiers). John pays the French government 142 francs per day for the one who works for him. He also has a ration card for him, from the proceeds of which he feeds his prisoner three meals per day. He must also see that the man has clothes.

When the prisoner finally is released he will get five francs per day for services rendered. That figures about one-half a cent, American money.

On that basis the French government supplies slave laborers at 137 francs per day clear profit. Multiply that by 700,000 and you have quite a few francs.

"Last spring," John's wife said, "the United States had to take 90,000 of the prisoners out of France and put them in American hospitals in Germany. They were sick and the French had no way of caring for them.

"But that wasn't a loss to France," John explained. "The United States shipped in 90,000 more to fill the ranks. The Red Cross has just finished another check and it looks as though the whole performance will have to be repeated this year."

—Manchester Boddy.

* * * *

From January 22 HUMAN EVENTS

One of the marvels of the political scene today is the stubborn resistance of the Germans to the wiles of Moscow. Many observers had early predicted that the Russians would beguile the Germans into submission — happy or unhappy—and friendship. The elections in Berlin and the Eastern Zone have given the lie to this prophecy; the anti-Communist vote is always impressive. What is the cause of this attitude? Most writers have attributed it to the wave of rapings and lootings which accompanied the Russian invasion; and to the general bad conduct of the Red Army— "Europe has seen the Red Army." But the invasion is long past and restoration of Red Army discipline should have produced a change of heart on the part of the Germans towards their unwelcome guests. The principal reason is something quite different from any so far publicly recorded, say observers returned from the scene.

The truth of the matter is that the Germans have acquired an abiding dislike of, and scorn for the Russians for the simple reason that the latter are not housebroken. From Stettin to Silesia, along and behind the iron curtain, the Russians have exercised their natural functions with so little modesty, not to mention cleanliness, that the Germans have been revolted. The Red Army soldiers, straight from the primitive habits of the steppes, have literally littered the streets, sidewalks, and houses of the formerly immaculate East German towns and cities. Many a parlor became a veritable "cloaca minima" to the ineradicable horror of the hausfrau. The Germans cannot soon forget this experience.

This distasteful picture has come to us not only from returned American observers but from private letters and reports from Germans in that area, which we have in our files. One should be reluctant to assign any one reason to a political phenomenon. But among the causes of the apparently miraculous adherence of the Germans to the civilization of the West must be prominently mentioned the German attachment to one of the products of that civilization—sanitation.

—o0o—

Baruch's Atomic Proposal

Out of the Frying Pan and Into the Fire

By H. A. JACKSON

Compared to Baruch's atomic control proposal, Hitler's bid for world-wide domination shows up as strictly amateur stuff.

In their frantic desire to escape destruction by atomic weapons, many superficial thinkers are willing to rush blindly into dangers infinitely worse.

The waiving of sovereignty, either by veto or otherwise, furnishes no guarantee of security against economic or military injustice or aggression. In general, the proposition offered is to share atomic secrets when all or a majority of the nations agree:

To denature atomic energy, so that it cannot be used for destructive purposes;

To vest authority in the U. N., to search and seize matter from which atomic weapons may be made;

To outlaw atomic bombs and their manufacture;

After agreement by a majority of the nations, all nations, whether signatories of such agreement or not, shall be compelled by force, to follow the dictation of the U. N., military organization.

This irresistible military force will then have power to search and inspect the most minute details of the affairs of any nation in the world, to see if its will is being observed.

The danger of vesting authority so tremendous, in the hands of any body of men, even our own citizens, is greater than even the menace of the bomb itself. This is true especially when it may be used to cement for all time, the federated power of monopoly as against the unprivileged of the whole world.

As to search and seizure, the sovereign rights of nations which do not subscribe to the proposed agreement are arbitrarily violated and they can be subjected to a ruthless domination, for whatever purposes the central authority dictates. No privacy of any description at any point on Earth would be free from the meddling snooping of this power.

Beside this, there being some 197,000,000 square miles involved, what chance would there be of successfully inspecting such a vast area?

As to denaturing atomic energy, it is in nowise certain that this can be done successfully.

If the U. N., had been functioning when Hitler was just rising to power, and he wasn't so well known for what he was, how much do you suppose his delegates could have been trusted not to use atomic knowledge for purposes which they have used **other power?**

There are other Hitlers,—perhaps even here. What proof have we that the U. N. doesn't contain international gunmen?

It is a strange coincidence that the present U. N. Secretary's name sounds suspiciously like "Trigger Lee".

Are there those so simple as to believe that a fascist would keep his word, in or outside a U. N.?

Nearly all the delegates of the various nations to the U. N., at present, do not actually represent their own people, but simply the holders of monopoly in their own countries. As a matter of fact, our own people have had practically nothing to say about who should represent them either.

As a result of that policy, special privilege overwhelmingly dominates even our delegation. Give that aggregation sole military power and they will surely make certain that they and their kind keep those monopolistic privileges.

Another thing to be considered is, what if Russia or Argentina or Spain, etc., won't come into the project and surrender their sovereign power: is it planned to attack them and compel them to do so? This would insure the bloody struggle which the U. N., is supposed to avert.

I don't believe for an instant that Russia or Argentina or Spain would keep a promise not to make atomic bombs; and I am not too certain that our own militarists could be trusted either.

Suppose Russia actually has atomic bombs right now; attempts of the U. N., to coerce that country, under such circumstances would bring on a struggle too horrible to contemplate.

Then too, it is altogether probable that atomic energy may be secured from matter other than uranium, plutonium, etc., such as is known now, and by simpler methods.

While we are dealing with the matter of arbitrary power usurpation, I want to call attention to some brazen statements by Emery Reves in his recent book, "The Anatomy of Peace". This man and his book have been acclaimed from the housetops by a horde of self-styled scholars and alleged 200% Americans.

This attitude demonstrates the worst phase of the present mental state of those who aspire to be leaders: it is the blind leading the blind.

What the worst brand of Nazis and Fascists have been condemned for, these American counterparts are unthinkingly praised for.

White Slavery in Hollywood

By SALEM BADER

Editor's Note: Salem Bader spent seven years, 1929 to 1935, in the Motion Picture Industry. Most of that time he spent as contract and free-lance actor with the Major Studios and others. During intervals he appeared in several stage productions. He was close to the inner workings, inside politics and other machinations of the Industry, and the men who run it. In pictures he worked under an assumed name which he does not care to divulge.

ELIZABETH SHORT WAS MURDERED IN THIS CITY A FEW WEEKS AGO!

Who was Elizabeth Short? She was just an American girl — there are millions like her. Then is murder anything unusual? Of course not — it is an everyday occurence. Most of us have become so accustomed to it that we read the headlines, rarely taking time to scan the details. And does it really matter how a person is murdered? Perhaps this time, there was a slight difference — the young woman's body was actually severed in two! **That is unusual even in this age of murder.**

This murder however, took place in the vicinity of Hollywood—and Hollywood is important! Hollywood means Motion Pictures,—it means movie stars who have become mythical tin gods to many people here and abroad! Hollywood—the center of tinsel and fame and glamor!

That is what people in the distance are made to believe; because Hollywood is the land of make-believe. That's the picture the distant audience beholds. **Behind that curtain there is another picture altogether different.** Then let us raise the curtain and see what goes on—because it was on the other side of the screen that Elizabeth Short lived. It was there she became what she was when she met her fate.

Our papers, particularly those that pander to the baser tastes of our population, have been making hay and doing a tremendous business splashing their front pages with the details of the cannibalistic outrage. They have not missed a point except perhaps, the display of the body cut in two.

To top off this whole horrible thing, and as if to further prove that there are more derelicts

among us than we care to imagine or admit, half a dozen or more young men surrendered, too anxious to confess to the performance of this inhuman act! These egomaniacs obsessed with the craving for public attention can find no other means than to use this savage and macabre killing as their vehicle. Strangely we find that several of these morbid wretches are veterans.

Here the thought comes as to whether these young men were born that way, or whether they were driven into that mental state by our warmongering egocentrics who sent them to the four corners of the earth to subdue other alleged maniacs.

Another question is asked: How many of our ex-high school boys have become paranoic to that degree, after years of training to become expert killers? But, where must the condemnation fall? Are these pathetic creatures to be condemned for their mental state, their present and future crimes against society, or should this very same society be cursed for driving these young men into that condition? Society cannot escape the answer!

Where does Hollywood come in? Let us not forget that Hollywood was one of the first arch war-drum beaters, and have been for a decade or more.

That's as far as the story got. The newspapers have sold copy by the carload. A few detective story writers were given a chance to explode their super-minds as to the why, who and how; the police have been busy chasing down rumors, clues and suspects and, of course, the murderer will be caught and punished. Then what? Will there be other murders? Of course there will, and just as gruesome. Why? Because no person, organization or law-body dares to have the imagination or moral courage and integrity to place the cause of this brutal murder where it belongs! There was one nibble, however. A lady newspaper writer who specializes in what is called "human interest stories", began calling her article "Road Down Hill in Hollywood for Young Girls". She got her story by interviewing Lynn Martin, a sixteen-year-old girl who is in custody of the juvenile authorities for questioning because she had once lived for a short time with Elizabeth Short.

Who is Lynn Martin? That does not matter! There are hundreds and perhaps thousands of Lynn Martins in Hollywood! Where do they come from? From everywhere—because Hollywood draws them from all over the country. Then our lady writer goes on to give a sentimental, heart-rending story of hunger, dates with strange men, cheap bars and whiskey, and what have you? So far and no further. It made a good story. People read it and turned away.

But is that all? Elizabeth Short is dead and Lynn Martin is in custody only because she is a juvenile. What about the other thousands of such girls who are still in Hollywood, any one of whom could today meet a similar hideous experience. Why are these young girls such cheap tramps, drunken sots and immoral wretches? Were they always that way? Then what makes them that way?

The answer is that Hollywood makes them what they are today. But what and who is Hollywood? Hollywood is the Motion Picture Industry, and the Motion Picture Industry IS THE MEN WHO RUN IT! Then are these men responsible for the thousands of youthful human wrecks who inhabit the shadowy and degenerate corners, of this thing called Hollywood? We shall see! (To be continued)

Dear Friend:

Please find $5.00 enclosed for your work. Do you know anything about this fellow Ahmad of Qadian?

"Brethren, ye should know that the prophecy about the second advent of Jesus Christ has been fulfilled in the person of Ahmad of Qadian (Punjab, India), the holy founder of world-wide Ahmadiyya Movement in Islam. He has proved with irrefutable arguments that Jesus did not die on the cross, but came out from the sepulchre with a mortal body of flesh and bones, and for centuries past has been wrongfully worshipped and deified." Yours truly, — C. W. L.

Editor's Note: Who can tell us about it?

The Sun Work Shop

Good
THOUGHT

Right WORD — Right DEED

Science and Faith vs. "Democracy"

"Daddy," asked David, "why is it that in the administration of the affairs of the Los Angeles Temple, Emanuel has the veto?"

"Theoretically the situation seems to be that he inherited the mantle of Dr. Hanish, as for example the Roman Catholics claim that Peter inherited the mantle of sovereignity of the Lord Jesus, which then, in apostolic succession, passed on to the Popes of Rome."

"Has Mazda-worship come to that stage? I was under the impression that Dr. Hanish was persecuted by Roman priestcraft and was completely opposed to authority over the minds of people. Does Mazda-religion not teach us that the Truth alone is our Savior and to know the Truth will set us free from sickness, error, and illusion?"

"Certainly, David, there is no authority higher than Truth. But you must have noticed that Dr. Hanish **introduced 'concessions'** in matters of diet because his followers could not live up to the Truth and so he introduced lots of other 'concessions' to their immature development in the conduct of life. One of them is this system of voting and the veto."

"Did he take that from the Pope's system of controlling the masses?"

"Darling, there is nothing new under the sun. The system had been worked out by demagogues thousands of years before there was a Roman church; they, like Hanish, simply adopted it for expediency's sake as the best means of dealing with morons and preserving the illusion for them of some sort of self-government. The same sort of window dressing is embodied in our political elections. It simply is a slick way of rigging up control and counting noses with the result determined beforehand by a clique. In this case it's Emanuel. As a last resort, **if the trick does not work his way, he vetoes the result of voting."**

"Is that honest, daddy?"

"There is no question of honesty involved. Results count. For example the Roman hierarchy has a plan in mind. The Pope issues an encyclical letter. All the bishops proclaim it. The priests read it from the pulpits and indoctrinate the people with it. If somebody raises a serious question, as for example Martin Luther, about its correctness, then the Pope calls the concilium of the cardinals. They vote on it **and by this arbitrary vote principle is decided."**

"Daddy, that reminds me that Luther, too, denounced Galileo and the Copernican system."

"Well, David, bring out the details. I have never sided with Luther. He is as much a murderer as all Church Racketeers. He was a tool of German princes who were fighting the political power of the Roman Popes. From our viewpoint Luther was just another variety of pseudo-religionists who mixed the sword with the Bible. Result: wars after wars."

"But, daddy, our Mazda-message offers to lift mankind out of this arbitrary authority to the level where we see God's Plan of Life scientifically in all details and then execute it gladly. We don't ever vote on whether or not to adopt the multiplication table, no more than our votes could affect the Copernican solar system."

"And that's the nub of the situation, David. When people are so childish and undeveloped that they must have daddy decide for them whether the multiplication table is correct before they memorize it, naturally, the Pope will decide Dogma for the masses. Dr. Hanish discovered that the European and American public were so woefully ignorant that he could not trust them with the most rudimentary sense of discernment. Therefore they forced him to adopt the demagoguery system of old by which one leads them by the nose. Emanuel represents it now with a vengeance and the pork-jowelled Jew simply wallows in its authority. Of course, we don't need him, nor his system. It's devised for morons and they alone relish it."

"How do we proceed, daddy?"

"You see, David, basically I am an engineer. I am intellectually based. I think before I act and I consider principles and factors in every situation. When engineers hold a consultation, the factual Truth prevails, not seniority, authority or veto power. In scientific matters an idea, a plan, is presented and explained. **It must tally with all known facts.** The youngest and most inconspicuous engineer can point to some basic error which will change the whole plan. I did that once when Sir William Wilcox showed us the plans for the new Hindieh Barrage, or Dam in Mesopotamia. They were delighted and respected me more thereafter, as well as gave me greater responsibilities. Only one year before that I had been merely a straw-boss over a dozen brick-making fellahim. Engineers are governed by Truth, they all obey it and personalities play no part. Now, that is how Mazda governs."

"You mean, we'll look to the truth involved in the questions and problems before us and let the truth decide them, as for example in mathematical problems one does not vote which of three different results is right, but lets correct mathematical checks eliminate the erroneous ones and all of us accept the right one without doubts in our minds."

"That's the way it is. For example, your administrative board at the Temple meets. The 'elector' presents the agenda for the evening. The members discuss them. Then it is not opinions that decide what action to take. But the truth. When the chairman asks the members to 'vote' it is not a matter for decisive executive legislation, but a **means of ascertaining whether all understand the problem.** Those who 'vote' in opposition, then, must explain their stand and if they can show why they are right, all agree upon it. Just the way, I, alone, modified the whole plan of a canal inlet at Hindieh by pointing to one omission in calculation. My idea was unanimously adopted, not because it was I, but because it was true.

"Mazda-worshippers don't bow to arbitrary authority. We never submit to 'veto'. We recognize only ONE authority, MAZDA. The MAZDA-Thought, or Master-Thought, unites us in unanimous action. Of course, one must be intelligent to grasp it in the first instance; where we have morons who must be led by the nose, then, you will find that hog-jowelled Jews slyly enter the picture and lead the goyim. But Aryans reject this sort of second-hand, hand-me-down leadership. We acquaint ourselves with Our Father's Thought first-hand and follow the Truth as free men."

He Fooled the "Liquidators"

My dear Friend:

Just received a nice letter from Senator Ed C. Johnson (D.-Colo.) congratulating me upon the "John Lewis Eyebrow Open Letter" you published.

I knew he would have a good laugh when he read what I had to say about those shaggy haired old buzzards in the Senate.

You see he himself has never won any prizes in a beauty contest.

In fact he is as rugged looking as old John ever was, stands a head taller and weighs well over three hundred pounds. But best of all he has brains and a gift for using the right words in the right place at the right times.

He said the "Open Letter" was going the rounds with his friends and all were getting a big bang out of it.

You see he happens to be one of the few people I ever called upon when I got in a tight spot, and found to be loyal. He stuck his political neck out for me, and due to the situation I was in at the mercy of Jewish doctors who, of course, knew the things I had written for E. J. Garner of Wichita, and others, were after my scalp. At any rate **I lived** when those placed in charge of our own "political cesspools" we call Veterans Hospitals, had decreed **I should be liquidated** the "quiet" way. But all that can keep for **another day.** I lived to write more and see them kicked out of the V. A. Service. And through it all I found a friend I would never have known except by hearsay, if I had not been called upon to fight for my life with all God gave me.

Also Senator Johnson sent me his M. S. of an article he wrote objecting to "peace time conscription", which will be in April issue of Education Magazine. It's nice to know a few **real** people.

Best Wishes,
JAMES B. ROBINSON.

Congressman A. L. Miller of Nebraska insists that one million refugees are coming into this country every year illegally or by legal trickery. Says the Congressman: "The trick is based on the requirement that immigrants must have a relative in this country or show that they have $1,200 in cash or in the bank. There is a neat racket of getting a letter from a bank showing $1,200, then transferring the same $1,200 to another bank, and getting a similar letter and so on, and so on, and so on. This goes on indefinitely. The original $1,200 will serve many people."

Fore-Taste of A-Bomb Explosions

By C. LEON de ARYAN

LOS ANGELES, February 20, — Our Greyhound bus was pulling into the depot at Sixth street, 9:45 a. m., when I saw people sticking their heads out from windows of surrounding skyscrapers and coming out of the depot to look up to the sky. I got out of the bus and looked southeast where a white mushroom cloud was rising and somebody said: "You arrived just in time to see the explosion."

I had heard nothing, felt nothing. We were only 10 blocks from the explosion at the time and had the people not been peering at the sky, I would never have known the difference.

Use of a high explosive acid in a new plating process was blamed by arson squad investigators for the devastating blast that killed at least 15 persons and hospitalized 151 others.

The explosion, which virtually leveled a city block in downtown Los Angeles, occurred in a one-story electro-plating plant at 922 E. Pico Blvd.

Fire department arson investigator R. F. Thompson revealed that Dr. Robert McGee, missing chemist at the plating company, had only last week expressed his fear of the tremendous potentialities of the acid by commenting to a fellow worker:

"I wouldn't want to be around when it takes off."

The chemical, described as perchloric acid, Thompson said, was the basic element in hardening spray on aluminum furniture which the plant **was plating for Army hospitals.**

Evidence that the acid was responsible for the explosion, Thompson said, was the fact that a giant crater was found at the spot where the perchloric acid vat was kept at the electro-plating plant.

Thompson said he had conferred with police chemist Lee Jones and a UCLA chemist. Both believed that perchloric acid was very unstable.

The university chemist, Thompson said, advanced the theory **that the blast could have been touched off by the chemical coming in direct contact with any organic material.**

The perchloric acid vat, arson investigators learned, was kept at the plant under constant refrigeration because of its high explosive powers.

Thompson said he learned from injured employes at the plant just minutes before the tragic blast—the hangers on the vat had been changed from iron to plastic.

Plastic, chemists agreed, contains considerable organic material.

The explosion was touched off at 9:45 a. m.

It came with such force that persons miles from the scene fully believed an atom bomb had fallen.

Some of the victims literally were blown to bits and their identities may never be established.

Paradoxically, a majority of those within the small structure escaped death, although all sustained varying injuries.

Several of the known dead were occupants of houses in the heavily congested area, which is marked by frame residences and small commercial buildings.

The plant did turn out government contract material during the war.

Force of the blast was noted in a 15-mile area, from West Los Angeles to Burbank and Huntington Park. Burbank police said they received 250 telephone calls within minutes after the explosion.

Many of the dead were burned by acid from vats in which metal parts were cooked. Most of them were devoid of clothing.

Witnesses said the dead were virtually cooked alive by the intense heat.

Franciscan friars from St. Joseph's Church arrived to administer extreme unction to the dying as they were brought from the wrecked buildings.

Father Arthur of St. Turibius Church, just a few blocks from the scene, said he had administered the last sacrament to at least a dozen persons.

* * * *

ALBERT S. OLSON DESCRIBES BLAST

"Now I know the horror of atomic warfare.

"For my first thought was that terrible blast was an atom bomb. And as I crawled through the rubble and saw the slowly rising mushroom cloud, I was sure of it.

"It looked just like the newsreel pictures of Bikini. I thought, 'Oh, my God, it was an atom bomb and we'll all die.'

"I am a metal spinner and I work right across the street from the explosion. But this day I've seen great tragedy and great heroism.

"The shock wave from the blast was so great that you could almost see it. It just picked up things and crumbled them aside.

"After I recovered from that first shock, I managed to reach my feet and get outside."

FORETASTE OF AMERICA'S FATE

This year is punctuated by railroad disasters, airplane crashes, sabotage, slave camps in Britain, France and Russia; Truman boasting of his responsibility for A-bombing innocent children and their parents in Japan. The U. S. A. has won every war; robbed and betrayed the Indians; won the revolutionary war and every war since; made a shambles of Europe; **created, according to Churchill, Fascism in Italy, Nazism in Germany, Communism in Russia, by meddling in War I; created a Russian hegemony of Europe in War II; and now comes the pay-off!**

The explosion in Los Angeles is a mild foretaste of things to come. When the U. S. A. became the hangman, executor and unpaid "Hessians", to subdue the world for British Imperialism, Russian Communism and place the Jews in control of our political economy here, it committed an outrage against the Spirit of

Cigarette, Moth
HAYES MENDING
HOLES Rewoven, $1. up
2189 El Cajon Blvd. J-1145

Civilization that has its backwash yet to experience.

Just prepare for disasters here, in peace time; and prepare for disasters in the war with Russia. The Sanhedrin is fomenting this coming war. The Russians would be happy to be left alone, but the Sanhedrin's agitators in Russia are inciting to armed imperialism and expansion. In Palestine its agents produce the terrorist wave against the British. In the U. S. A. their stooge, Gen. Marshall, works for military conscription.

More A-bomb plants are erected here and soon the backwash comes. When sabotage will explode those plants and A-bombs, the experience of Los Angeles will be nothing and Hiroshima and Nagasaki will pale into insignificance.

"You cannot mock God. For what you sow, that also shall you reap!"

—————o0o—————

Several U. S. Senators are receiving anonymous telephone calls threatening their assassination if they don't ease the pressure to clear the Reds out of the State Department. Terror is a recognized Communist weapon "whereby a minority makes itself the majority", as Trotsky once put it. The boldness and desperation of the Reds in the U. S. is shown by their use of terror on the U. S. Senate. Secret Red control in the State Department is essential to the Communist cause if the right plays are to be made on the European chessboard to give Stalin eventual control of Europe.

—————o0o—————

Dear Kosti:

Have time for only a line, but want to enclose my wee bit ($5), to the CAUSE, to be used as you see fit, as you know where it can do the most good. I am so grateful to you for the information on the front page in regards to Mr. Bell, and the SEEMING VULTURES. GOOD WILL PREVAIL, and I feel sure that with any news of enlightenment on that case will eventually be UNDERSTOOD and take root as world conditions are congregating for one big blow the top, and man as a whole, will find he is not so smart after all, who seek gains by selfish means and interest. May God bless you, give you strength and the means to march on in your interest of TRUTH and JUSTICE.

Most sincerely, J. M. S.

Federal City

Anti-Third Term Amendment . . . Georgia Spotlight . . . Tribute to Washington

By WASHINGTON ADAMS

WASHINGTON, Feb. 22 (Special)—New Deal socialists are angry with the conservative Congress (Northern Republicans and Southern Democrats) for getting under way an Amendment to the Constitution, restricting a President to not more than nine years in office. The House has passed the amendment and the Senate is expected to follow suit.

This shows how far the Newdealers have strayed from the old paths of "Democracy". Often in times past the Democratic party has come out for a one or two term amendment. It was Presidents Jackson and Jefferson (the party patron saints) who were of all Presidents the most persistent opponents of more than two terms in office.

JACKSON was willing to serve only ONE TERM, and throughout that first term he steadily begged Congress to submit an amendment, restricting the President to ONE TERM ONLY. His masterly arguments were never answered.

JEFFERSON, who was our minister to France when the Constitution was written, came back all hot and bothered because we had not put in it a one-term provision. He always regarded it as the one weak spot in our Constitution.

I favor a five-year single term, with the President to be elected by the Congress. That is the only true republican government.

"How," argued Jefferson, "can an ordinary citizen in Georgia pass intelligent judgment upon the qualifications of a Presidential 'candidate' in Maine?" He cannot; hence republican (representative) government succeeds, where democracy descends to demagoguery and failure.

* * * *

GEORGIA SPOTLIGHT

Two of Georgia's Superior Court Judges, Justices Bond Almand and Walter Hendrix, have ruled that the Legislature of Georgia was within its constitutional powers in electing Herman Talmadge governor of Georgia.

Judge Almand, after approving the three-day old decision of Judge Hendrix that the Legislature acted legally, hit the bull's-eye with the following statement:

2917 University Ave. 4314 University Ave.
UNIVERSAL BOOT SHOPS
W. L. Douglas Shoes
America's Best Known Shoes
946 Fifth Ave. 1154 Fifth Ave.

"Theoretically, all sovereign powers in a democracy rest in the people. but, actually, UNDER OUR REPUBLICAN FORM OF GOVERNMENT, the General Assembly is the elected representatives of the people and may exercise all sovereign powers of the people which are not limited by the Constitution . . . . "

Apparently these two Georgia jurists are learned in the law and know the difference between a "democratic" and a "republican" form of government.

But I did not like Judge Almand's reference to the **"stage coach era".**

It is true, some Constitutions were written in the "stage coach era". Christ's "Sermon on the Mount" was delivered in the "ox-cart era". But great political and spiritual truths are eternal.

This is "Bill of Rights" week, and none of these liberties can ever be outmoded.

* * * *

GEORGIA'S new law for a WHITE PRIMARY violates no Constitutional provision, since the Constitution says nothing whatever about primaries or conventions. **The Founders did not contemplate either monstrosity.** And Republican Supreme Courts so decided. But it remained for the New Deal Socialist Court to make its own law, and demand Negro participation.

What the Georgians seem to have done is to ABOLISH all LEGALIZED PRIMARIES, leaving them private party or club affairs. The Democratic Committee can now set up a white affair; and Negroes can do the same thing for their "race", if they wish, putting up a set of black, or black and tan, candidates, to be voted upon in the general election.

* * * *

POOR OLD MRS. LONGSTREET—widow of the famous general—made an impassioned pro-Negro speech before the Georgia legislators. She has therefore been eulogized by the solid Negro and Red press of the nation; also by most of the Jewish press. She said:

"A 'race' that can produce Booker T. Washington and George W. Carver deserves the ballot."

Much error in that statement.

(1) American Negroes are NOT a "race"—but a highly mongrelized Negroid group, of the utmost variation and most of whose leaders are white or almost white.

(2) Neither races nor groups ever produce any single human being; only two persons are involved in the parenthood of any one man.

(3) B. T. Washington and George Carver owed almost nothing to the Negroid group with which Mrs. Longstreet associated them,—but everything to the great American WHITE race that created the schools and the civilization that they enjoyed and were the product of. Did black Africa ever produce their equal?

(4) Because an occasional smart man appears in such a group is no logical proof that the whole group are fit for citizenship. This point was beautifully illustrated in Thomas Jefferson's writings, his "Virginia Notes", in which he would **deprive the ignorant of the ballot and of full citizenship.**

* * * *

HOMER L. LOOMIS, JR., the would-be Hitler from New York, was found guilty by a Georgia jury, after a four-hour speech by himself, and the judge sentenced him to one year on the roads. Just as I predicted. He appealed. Later he will face other charges. He is in a tough spot.

Lawyer Loomis, Sr., of New York, defended the boy, and his speech, charging that Jews control our press, radio, theatre and government, created so much anger in Gotham that a "dispossess" notice was clapped on the door of his law office, Room 814 at 60 Wall St., New York. Also, Herman Hoffman, president of the N. Y. County Criminal Bar Assn., has asked Georgia for records of the trial, with the idea of instituting DISBARMENT proceedings against Loomis, Sr.

* * * *

SENATE REPUBLICANS will lose caste in G. O. P. circles if they fail to reject **Lillienthal, the New Deal socialist,** for the head post of the Atomic Commission. It looks now that they will confirm him.

The bad old CAMARILLA of the FDR days is still on the job in Washington. Are they feeding our Senators loco weed? . . . . Real Americans are sick in the pit of their stomachs.

* * * *

Feb. 22 was the birthday of **GEORGE WASHINGTON**—greatest, wisest and best of all our Presidents. He knew more about the science of government than any other President, save Madison alone. Jefferson was a close third.

Frederick the Great of Prussia sent Washington his sword, relic of the Seven Years' War, and on it were carved these words: "FROM THE OLDEST GENERAL IN EUROPE TO THE GREATEST GENERAL IN THE WORLD."

I had an ancestor who sat with Washington in the Constitutional Convention. Washington appointed him to the Supreme Court of the United States.

So on Washington's tomb I lay the flowers of love, admiration and boundless respect.

OLIVES
GIFFORD'S California Olives

Talmadge Signs White Primary Law

ATLANTA, Ga., — Gov. Herman Talmadge signed his prized white primary bill into law and charged that his legislative opponents who were attempting to incorporate a rival Democratic Party "must be trying to start a black party."

Talmadge hailed passage of his bill as a triumph over forces "so largely concentrated outside the state" which would deny white Georgians the right of membership in the party "whose principles and ideals, rules and regulations, were to be dictated by them."

The bill repealed all references to primary elections from Georgia law. It made the Democratic Party in effect a private club whose acts are not subject to review by Federal courts.

By this means, the primary law sought to circumvent a Supreme Court ruling that Negroes are entitled to vote in all primaries.

Almost as soon as the bill received its final passage vote yesterday, two opposing representatives, A. Richard Kenyon of Gainesville and George Ramsey of Toccoa, obtained a certificate from the secretary of state to incorporate a Democratic Party. The name had not been used in incorporation papers.

"I don't know anything about it, but they must be trying to start a black party in the state," Talmadge said when asked to comment. "They can go ahead and organize a black party if they want to. We've got a Democratic white party."

Editor's Note: Naturally, as long as we all swear to uphold the U. S. Constitution, a "black party" is bound to appear in Georgia to give Negroes their constitutional citizenship.

—————o0o—————

The following words are quoted exactly as they appeared in the DAILY WORKER, official Communist periodical, for Saturday, Feb. 1, 1947: "A little noted event took place in the country last week. It took place in the parlors of miners, in small club rooms in little towns, and in meeting halls of larger cities. We refer to the election of some 6,000 new Communist Party branch executives."

—————o0o—————

Rats in the Corn Crib

LOS ANGELES, — The Newdeal method of harrassing political opponents with trumped up tax demands and investigations which former Justice of the California Supreme Court, John W. Preston, qualified as "rats in the corn crib", is exposing itself now. This method was advocated by the CIO, and Sidney Hillman, in many instances against its enemies as an effective means of persecution and was applied in the case of Arthur L. Bell and Christ's Church of the Golden Rule.

The state of California, instigated by former Atty. Gen. W. S. Kenny, stooge for the CIO, and his Assistant Persecutor Linn, is demanding $300,000 in taxes, of which they will never collect more than $100, if any, because nothing is due. But it helps the rats in the corn crib to dissipate the estate of the Church.

The U. S. Treasury came forward with the monstrous demand for $1,100,000 in taxes for the years 1944 and 1945, when the Church owes not one single penny. But after the auditors of Arthur Young & Co. went thru the books and made their report, U. S. Treasury Attorney Harpole offered in U. S. District Court before Judge Mathes a tentative compromise figure of $125,000, plus interest, in lieu of the original $1,100,000 demand. That means about 10%. This recommendation by Harpole shows up the whole crooked deal by which Arthur L. Bell and his Church is being held up and persecuted.

It is evident that Judge Mathes has been sold a fake bill of goods by Warren Olney III and adheres to this prejudice in spite of the facts and the law to the contrary. **Mathes considers himself an avenger of the "poor people who work for peon's wages" and it tickles his ego.** Yet, because he does not stand in the truth of the situation, since the people are by no means peons but crusaders, he precipitates miscarriage of justice which will boomerang on his reputation of fairness and keen discrimination as a judge. Someday he will wonder how he could have fallen for the siren song of the unscrupulous Olney III to persecute people who dare adhere to their religious precepts in practice as well as theory.

SENTENCE L. A. MAN IN BANKRUPTCY FRAUD

CHICAGO, — Mark Appleman, 55, Los Angeles clothier, charged with diverting $66,000 to himself during bankruptcy proceedings, was sentenced to 20 months' imprisonment.

Appleman, former president of a credit clothing company operating 10 stores in this vicinity, was charged with concealing the money when the firm went bankrupt in 1942.

—————o0o—————

Congressman Karl E. Mundt, of South Dakota, a member of the Special Committee for the Investigation of Un-American Activities, informed Congress within the past few days that there are 3,696 known Russian agents in the U. S. who are inspecting our defenses and assembling a mass of information about American railroads, dams, power lines, airplane and automobile factories.

SAVAGES WILL KILL

Christ's Golden Rule Series — No. 6

By ARLENE WIENKE
P. O. Box 452, Phoenix, Arizona

Dear Mr. de Aryan:

Often I have been going to write—your article "Savages Will Kill" spurred me into action today—particularly with reference to "Vegetarians". I agree wholeheartedly that as long as people fill their systems with flesh and blood of the beast so long will wars go on in one excuse or the other.

The political and revolutionary effects are only the cause of what we have given out in the universe of our murderous deeds to those in our keeping. The law of just compensation.

It has been over fifteen years since I stopped eating meat immediately after seeing a cow killed for flesh food on a farm. **The fear in that cow's eyes of impending death I shall never forget** and henceforth set out to plead for the animals. From that day on **I never touched meat and never had any need for it. Once a person is awakened to the awful thought** one could not possibly digest and swallow the flesh of beasts.

I do believe the best food we have today to those who are changing over is the avocado—I have heard there was an island where natives lived principally on avocados they do not age rapidly or acquire wrinkles. This food contains practically all of the vitamins. If we have the right mental attitude toward life the food we eat is of little consequence, I believe, so long as we live and let live. Unless we stop killing, we cannot look forward to that peace which we do not deserve.

By way of introduction—you may be interested to know that I am the Founder and Pastor of the "Animal Church" recently started in Phoenix—the first church of its kind in the world. Also the President of the Phoenix and Arizona Humane Society which was organized a short time ago. Animal conditions here in this western state have been about the worst that I have ever seen and felt that when people wire up dog's mouths and burn horses alive—tear off cat's heads—round up thousands of horses a year in the most cruel manner for dog food companies and haul them over hot desert countries when they have not had water for days and days and many die enroute—it is time that we do some praying for these poor beasts.

For after all are we not told in the Bible to "Go into all the world and preach the gospel to every living creature." Heretofore preaching had been done only to the two-legged creatures and it is certain we need to save the animals from the most diabolical of all creatures "Man". By praying for the animals it will help to elevate man to a higher plane and to gain more respect to the animal kingdom which has so long served man.

I shall send you some of the clippings so that you may know this work is under way—even tho there has been tremendous opposition from clergy, politicians and others who make their living off of the animals and thrive on cruelty. This work I believe cannot be stopped by anyone so material as man—I was put off the City Humane Board and I know the reason was that I was fighting the dog racing gamblers and I believe the politicians are getting a nice rake off. They have been after me all along but they know that I shall not be squelched.

Financially there is little support to the humane work any way and I had made my livelihood writing insurance—but the demands upon my time have been so great that I scarcely get time to do that.

I have a weekly radio broadcast called "Animal Church of the Air" and that program has been going on for a year now over state KPHO without charge for fifteen minute period. The name "Animal Church" program was changed three weeks ago and under that name rather than Humane Society we are making much further grounds. The American Humane Association of Albany, N. Y., does not give the Society any support—and they are very rich, they do very little, in my observation, but send around high-paid salaried men to play around with the movies—and the producers with their fancy animals. As far as real cruelty they have not offered any assistance at all—and the manager was said to have told my friend that it was too hot over here to ever come over.

(To be concluded next week)

—————o0o—————

I Predict! — That if the people continue to elect presidents to serve as Bernard Baruch's personal chore boys, they will continue to work, slave, give, to let "Hypocrisy" live, regardless of what Drew Pearson says. —James Bryan.

—————o0o—————

U. S. Reds seized quantities of letterheads, German typewriters, etc., upon the invasion of Germany and are busily forging documents tying anti-Red Congressmen up to Fascism. Such forged documents were used in a preliminary way in the 1946 campaign and are expected to figure more largely in 1948.

—————o0o—————

Congressman Alvin O'Konski says that Oscar Lange, Poland's representative to the U. N., is not even a Pole but a German Jew.

OUR GROUNDHOG WORLD

By Geo. Cartwright, Modesto, Calif.

DEMILITARIZATION NEEDED

LIBERTYVILLE, Ill.,—Having lived in several foreign countries and seen peace time conscription at work, I know that, once adopted, it is never abandoned voluntarily. I am thoroly convinced that, if it is adopted here, it will mean the beginning of the end of our democracy. We must somehow demilitarize our country. —Mrs. Ruth B. Bates.

REPUBLICAN STRADDLERS

BARTLETT, Ill.,—Herbert Hoover straddled the prohibition question. Gov. Green straddled the sales tax question. Now the Republicans in congress (newly elected) are straddling the 20% tax reduction question. How can this disservice to Republican voters be justified?

—U. Mathesen.

BALAAM'S ASS ALSO SPOKE

Balaam's Ass, speaking with a man's voice, forbade the madness of the prophet who loved the wages of unrighteousness.

Two outstanding historical remarks will, in many people's opinion, qualify their authors to medals as U. S. ace asses, Coal trust Baer is quoted: "God in his infinite wisdom made the coal barons trustees of the coal land for the people."

Now we read in LaFollette's Progressive of Feb. 10th: "Warren R. Austin, U. S. representative in United Nations Security Council, emerged from a White House conference with Pres. Truman and **announced with a straight face** that peacetime conscription was the foundation of the whole superstructure of peace."

Conscription is the foundation of grave-yard peace. "In Flanders fields the poppies grow amid the crosses row on row." Peace is there—the peace that comes when Fascism's "Big Business Backed by Bayonets," runs its cursed course of land monopoly and cartel rule, producing war, flu and famine.

German conscription drove thousands of young men to other lands. Those remaining were built into armies to defend rotten royalty and Junker land monopoly. **Read "Why War" by Frederic C. Howe.** The royalty and Junkers rewarded the conscripts with their contempt.

America only needs conscription to enslave Labor and make them loyal to land monopoly and the cartel "flea enterprise system".

CONSCRIPTION PEACE PRESCRIPTION

Compulsory military service has never prevented war in Europe or elsewhere, but on the contrary, causes suspicion and fears to grow between nations and inclines the rulers of men to war rather than peace.

—Hon. Gerald W. Landis, (Ind. Rep.)

OILING THE GANGSTER

Just after Mussolini became dictator in the 1920's, his Fascist thugs "bumped off" a great Italian democrat, Giacomo Matteotti. **There were stories that he "knew too much" about deals between Mussolini and American oil companies.**

Now, in a trial at Rome, it turns out that a St. Louis gangster named Amerigo Dumini was the man who assassinated Matteotti, and that all the men who may have known about oil deals are dead.—Donald Ramsey in Labor.

STASSEN'S ANGELS

A writer in "Labor" states: "If you look back through Stassen's administration as governor of Minnesota, you will find **the tax on iron ore was reduced considerably when the greatest amount of ore was taken out of the state in all its history. This tax reduction amounted to millions.**

Also the "Lien Law" was passed, allowing Minnesota to take over many homes which were sold to big real estate operators who made enormous profits on this property.

Keep an eye on the mine owners, the steel magnates and the realtors as Stassen's chief 'angels'."

STORM SIGNAL

"Unless prices drop substantially, there is going to be a recession in this country.

"Dr. John D. Clark, economic adviser to Pres. Truman, sounded that warning before a gathering of dairymen at Atlantic City."

* * * *

Life is merely an expression
—Don't you know?—
Of an absolute obsession,
Don't you know?
It's a march, without digression,—
Just one devilish long procession
From Depression to Depression;
Don't you know?
—Edmund Vance Cooke.

(Continued)

"The lip of truth shall be established for ever". Proverbs, 12:19.

Yiddish is the language developed by the people of the Jewish faith living in eastern Europe, late in the Middle Ages. Yiddish became the mother tongue of the descendants of the Khazars. To their mother tongue they added words by the corruption of German, Polish, Russian and words of the other languages spoken by their many conquerors and co-religionists speaking other languages and from other countries who came to do business with them or to settle there with them. Yiddish is a jargon of many languages and is not a language at all in itself. The first Khazar king who was converted to Judaism adopted the Hebrew alphabet for the language used by the Khazars when he saw it in his Hebrew bible for the fir. time. Yiddish and Hebrew use the same alphabet, as Swedish and Spanish do; but the languages, as such, are as truly different as English and Chinese. Yiddish is **not** the language of Judaism. Hebrew **is exclusively** the language of Judaism. Hebrew is the language of the bible. Hebrew was developed more than two thousand five hundred years **before Yiddish,** and in a country a few thousand miles removed. Religious ceremonies in Judaism are conducted in Hebrew, with never even a single word of Yiddish. Since the middle ages Yiddish has remained the mother tongue of the eastern European persons of the Jewish faith, (Poles, Lithuanians, Galicians, Ukranians, Russians and Rumanians). Yiddish has been their language just as German, Greek and Chinese have been the languages of the Germans, Greeks, and Chinese. Yiddish was unknown for several thousand years by the widely-scattered populations of the Jewish faith throughout Europe, Asia and Africa who spoke the languages of the countries in which they lived. Yiddish was carried to the other Jewish populations throughout the world by the Yiddish speaking persons who emigrated from eastern Europe. The tide of this great emigration from Russia swept over the world between 1890 and 1914 and totalled 3,500,000 of whom 1,650,000 emigrated to the United States. This rapid influx within a short period into concentrated areas created the impression in this country that Yiddish speaking peoples and people of the Jewish faith were one and the same. The daily circulation of 400,000 Yiddish newspapers in New York City alone serves to keep alive this incorrect belief among many Americans. The use of Yiddish in certain industries in New York City and other large cities tends to promote this belief.

"Ye shall not steal, neither deal falsely, neither lie to one another". Levi. 19:11.

Since 1916 Zionists have proceeded on the theory that their plan for creating an independent Jewish state in Palestine was the only certain method by which Zionists could acquire complete control and outright ownership of the proven Five Trillion Dollar ($5,000,000,000,000.) chemical and mineral wealth of the Dead Sea. A Jewish state possessing this fabulous wealth would by virtue of its financial power soon become a nation with greater international importance than **any** nation in the **history of the world.** The real driving force behind the feverish Zionist **"give me Palestine or give me nothing"** struggle now going on is their hope of resurrecting in Palestine their former eastern European Jewish kingdom (Khazar). Zionists are using the horrible Hitler massacre **not for the purpose of accelerating the rescue of their co-religionists** from eastern Europe, as "professional" Zionists would have the world believe as they **plead for contributions, but perverting this humanitarian task** to get the Five Trillion Dollar juicy Palestine **"prize package."** Twenty years before the arrival on the scene of Adolph Hitler and his Nazi murderers Zionists were **then using less impressive alibis** to justify their **"high-jacking"** of the Five Trillion Dollar chemical and mineral wealth of the Dead Sea which always has rightfully belonged to the native Palestinians. Zionist membership has long been made up largely of persons of eastern European origin (Polish, Lithuanian, Galician, Ukranian, Russian and Rumanian) and Zionist leadershp has been almost exclusively made up of persons of the same origin. The **official report** of the British Crown Agents for the Colonies prepared for the Government of Palestine, entitled "Production of Minerals from the Waters of the Dead Sea" states on page 2 there are **forty-two billion metric tons** of Potassium Chloride, Magnesium Bromide, Magnesium Chloride, Calcium Chloride and Sodium Chloride, "and also a supply of potash which may be considered inexhaustible", of a total value of about Five Trillion Dollars at today's prices. Zionists will someday be held responsible for the political polution and financial filth by which they have obtained temporary possession of the Dead Sea and are now removing from it wrongfully through the operation of Palestine Potash Ltd., a corporate "front" for the secret Zionist "high-command", the natural resources of the land which belong to the people who live there. Ironically Zionists are using the profits from this operation to finance the conquest of the country from these natives. When published, the facts will shock the world and rock the reputations of many names long held to be above suspicion.

(To be continued)

As Mississippi Sees Senator Bilbo

DANVILLE, Va.,—Captain Tom L. Gibson is President of the Mississippi Taxpayers Association; a former president of the Gridiron Club, has been a member of the state legislature and sheriff of his county. He is a member of several veteran's organizations, has been a publisher and is now part owner of a newspaper. Few if any could have better judgment about what makes politics tick in Mississippi.

* * * *

Editor, The Individualist:

The nation still seems to be all agog over the nomination of Senator Bilbo, and withal a little dazed at the news that he was victorious over all of his opponents in one "fell swoop". When I visit other states, all people ask questions about it.

Mississippi is one of the most pro-Anglo-Saxon states of the union, and her line of thought is to keep it that way. Neither does she like the intrusion of certain groups now dominant in the Northeast, which have made New York seem like the sewer of the nation.

If a saint and the devil were running for the office of senator, and the CIO-PAC, the Sidney Hillman gangs, Walter Winchell (who said any 100% American is 99% louse, and "I am against Bilbo"), Drew Pearson (a seemingly perverted journalist who has been accused of publishing false reports), and a lot of anti-Anglo-Saxon organizations all support the saint; we would all support the devil.

Bilbo had a clever opponent in the primary: A man who was outstanding, and by far the strongest candidate. Perhaps he was a little TOO clever, or not careful enough about the company he keeps.

An adopted son of Mississippi, who had written some articles rather out of line with general thought here, and who had connections in New York, made a visit to that metropolis. When he came back, a report passed around that he had 100 thousand dollars to beat Bilbo. He called a meeting at which plans were made to beat Bilbo by spending the hundred thousand dollars for his leading opponent. Rumor says that three white men from Mississippi attended that meeting; there were nine whites from other states, and about 100 Negroes. Dame Rumor also whispers that only about 20 thousand dollars were actually spent, and that several people are wondering what became of 80. It was said that money came in from a number of other organizations, and it was known that anyone could have some money, if he voted "right". (red)

With all this confirmed by circumstances, the voters had no choice about who to vote for. We couldn't let a bunch of communistic gangsters get a toe hold down here in Mississippi.

Did Longchamps Restaurants "Set Up" New York Justices?

Former Employee Asserts Lustig "Wined and Dined" Jurists Free

NEW YORK, (Special).—A former employee of the famous Longchamps Restaurant chain states that these garish eating places habitually over a long period of time wined and dined various New York City judges—both Federal and State—gratuitously during the time when the Federal prosecutors allege that Henry Lustig, the proprietor, was neglecting to pay his just income taxes.

Lustig was tried and convicted and ordered to pay the U. S. Treasury about three million dollars in back income taxes and fines for delinquency, in addition to a prison term.

The big caterer and two associates appealed the conviction, and were let out on $15,000 bail —a small sum compared to the $5,000 to $30,000 bail required of some of the alleged seditionists.

Lustig is of Jewish extraction, although said to be a Christian convert and married to an Episcopalian. So powerful was this man's pull with the court that, after conviction of a serious crime—22 counts—against the government, he was released on the same bail.

Contrast Lustig's treatment with that meted out to the three innocent Christian victims of Jewish persecution—Maertz, Mertig and Elmhurst, who were not only required to post heavy bail ($12,000), but, after conviction of an offense no more serious than attending a public meeting, were not even allowed bail, pending appeal, but were at once hustled off to prison.

The Christians were not even allowed a jury trial! That's New York justice.

THE "SLAUGHTER RAG" IN CHURCH

Dear Mr. de Aryan:

Enclosed you find $2.00 and postage to send me a bunch of Feb. 3 issues. I never read anything so factual as the "Open letter by Salem Bader". I know Mr. Bader from the lecture platform. He sure made a homerun by me when he touched this so-called religion.

Priest craft; why I would even go so far and call it witchcraft. Any minister or priest who can hang up that service flag, I would call it "slaughter rag", in his church, bragging how many of his parishioners went out to kill their Christian brothers 3,000 miles away, has proved to me that he is the servant of the money changers, whom Christ drove from the temple.

Sincerely, Mrs. G. A. EDEN.

—oOo—

My dear Mr. de Aryan:

I am enclosing a check for a year's subscription to The Broom.

I am very interested in the work you are doing and the stand that you take for the things that you think are right. We need more people like you to bring about a better condition in which to live. I will look forward with great anticipation to each copy of The Broom.

May Providence spare you to carry on successfully the work you are doing.

Most sincerely yours, — H. R. P.

Harold Stassen certainly must know that he cannot be nominated for President. However, he has established elaborate headquarters in Washington. It is believed that his real purpose is to lobby for the World Government and Super State crowd.

HUMANS DON'T COUNT

KANSAS CITY, Mo.,—During the war one of my sons, both of whom enlisted, became a psychoneurotic case. I tried to intercede in his behalf because military routine apparently could do little to help him, except to convict him by court martial for deeds done when he was beside himself and without help.

I wrote to the White House in desperation and my letter was neatly referred to official channels again. A human being's future was involved, mind you.

I read today that inquiries concerning Fala's diet, habits, and welfare were taken care of by Mr. Steve Early, Presidential secretary, so that every important detail of that sacred canine's life would be surely described, and that all of the data now recorded in "Fala's Papers," which the press report rightly terms a "whimsical collection".

On one hand, a soldier boy's future could get no attention other than the official runaround. But a dog—The Dog—no detail was overlooked to answer correspondence, even to the point of Presidential secretary No. 1 taking care of it himself while a war was on.

What a hell of a commentary on the last regime's interest in the "common man"!

—Edward McMillan.

How the Pope Manufactured "Catholics"

So determined was the Pope to alleviate suffering of those whom Hitler had singled out for destruction, that he attempted to protect large numbers by alleging their conversion to Christianity.

Perhaps the most unusual means of extending protection to endangered persons in enemy-controlled territory were the efforts of the Catholic Church to save lives by means of conversion to Christianity. Nazi attempts to oppose these measures met with the response that the church had authority to baptize immediately any person who was in imminent danger of death. When the situation in Hungary grew more critical, groups of Hungarian Nazis entered churches and broke up religious classes being held for Jews, with the result that many baptisms took place in Hungarian air-raid shelters, where hundreds were baptized. —Drew Pearson

IT'S A TOMMYCOAT

Becky McCall of Blytheville, Ark., runner-up in the Atlantic City Beauty Contest this year, gets fitted for a crisp cotton tommy-coat for cool sleeping next summer. The coat was made of cotton feed bag material by Mrs. Louise Creach, Memphis, Tenn., clothing designer.
